

10. Applicable carburetor identification number

The changes to the carburetor assembly and its component parts are indicated by the carburetor identification number.

The identification number is stamped as shown below.

(Example)

The modification No. indicates changes to the carburetor assembly and/or its component parts. The alphabetical letterings framed in a square and when there are any changes to the carburetor, it is advanced in sequence.

When any part of the carburetor assembly needs replacement, please check only the product No. and the modification No.

Part numbers for the parts to be ordered are determined by the carburetor identification number which is listed in the "Remarks" column.

The number listed in the Remarks column is a shortened form of the identification No. stamped on the carburetor. The shortened form, such as "650 A", consists of the product No. and the modification No.

All other numbers and letters are unnecessary, since they do not concern the changes made the carburetor assembly.

Refer to the following examples.

(Example)

No. information	Applicable for use on all carburetors.
650 A	Applicable only for use on 650 carburetors designated as A.
650 A~	Applicable for use on 650 carburetors designated as A or subsequent letters.
650 A ~ 650 C	Applicable for use on 650 carburetors designated from letters A through C.

The number is stamped on the carburetor at the following location.
